S.No: 16	Exp. Name: *Write a simple python program to declare a variable in different possible ways?*	Date:2023-09-14

Aim:

Write a simple python program to declare a variable in different possible ways?

Note : Identify the errors in the variable declarations in the given code and correct them.

Source Code:

diffVariable.py

```
nm = 10
 #print the variable
print(nm)
lnum = 11
 #print the variable
print(lnum)
num = 12
 #print the variable
print(num)
numo = 13
 #print the variable
print(numo)
num123 = 14
 #print the variable
print(num123)
num = 20
 #print the variable
print(num)
```

Execution Results - All test cases have succeeded!
